Weighted Total:

Weighted Total for the Entire Proposal:

1. This will be an all or none procurement. Contractor's failing to bid on all years, and all ranges may be disqualified.
2. For evaluation purposes, the Government has weighted the ranges based on the likelihood that if an order is placed, it will be placed in that particular range. An evaluation price for each year will be calculated by multiplying the offered unit prices by their respective weights and the highest quantities for each range and adding them together.
3. If first article test is not waived, its cost will be added to Ordering Period 1 as part of the evaluated price.
4. A total evaluation price will be determined by adding the adjusted totals of all years.
5. If first article test is required, its cost will be amortized into the unit price for the initial delivery order.
