Price Evaluation Spreadsheet

Gyro Assembly, NSN: 1015-01-076-6742, P/N: 12283116

	Pricing Period 1			Pricing Period 2			Pricing Period 3		
	Evaluation Range	**Proposed Unit Price**	Weight	Evaluation Range	**Proposed Unit Price**	Weight	Evaluation Range	**Proposed Unit Price**	Weight
	75-100		10%	75-100		5%	75-100		5%
	101-150		5%	101-125		10%	101-125		10%
	151-175		65%	126-150		75%	126-150		75%
	176-225		10%	151-175		5%	151-175		5%
	226-275		10%	176-200		5%	176-200		5%
Weighted Unit Price		$ -			$ -			$ -	
Estimated Quantity		250**			150			150	
Evaluated Production Price		$ -			$ -			$ -	

**The estimated quantity of 250 units includes the Guaranteed Minimum Quantity of 173 units.

Offerors must submit their Proposed Unit Prices in the bold outlined spaces.

The Government will multiply the Proposed Unit Price times its corresponding weight (the "weight" is the most current assessment of the likelihood, expressed as a percentage, that the actual order quantity will fall within that range).

The weighted prices for each range will be added together resulting in a single Weighted Unit Price which is then multiplied times the Estimated Quantity to determine the Evaluated Production Price.

The Evaluated Prices for each Pricing Period for will be summed with the price for First Article Testing (as provided in Section B) to arrive at a Total Evaluated Price.

Should First Article Testing be waived, the Total Evaluated Price will include the Evaluated Prices for each Pricing Period.
