Subject: HDC Contract for HyPAK kits

Nancy,

The Intervehicle Power Cable Kit (11682336-2) does not come individually packaged. HDC does not need to package these cables. They just need to tag them with the part number and lay them in the box.

● **Comments:**

Teresa,

Attached is the list of parts that will require packaging. Please note that there are 4 parts with an "" by them. These parts will most likely not require packaging but we are not 100% percent positive yet. The one item with the "" will require packaging with a different part number than the one that is on the package now. The new part number is 12965291-1.

Once I find out about the "" items, I will let you know.

Greg Carber
