SUPPLEMENTAL INFORMATION

1. This solicitation is issued as a 100% Small Business Set Aside and will result in a Firm Fixed Price, Longterm, 5 year, Requirements type contract utilizing simplified commercial acquisition procedures. This solicitation contains provisions for 'Brand Name or Equal' as further described in para 13 of this narrative. The use of simplified acquisition procedures for commercial supplies and services not exceeding \$5,000,000 is authorized by FAR Subpart 13.5, Test Program for Certain Commercial Items.

2. The government requires a Lift, Vehicle Driveline Component used for the purpose of removing and installing transmissions, transfer cases, differentials, and other driveline components on the Army's fleet of military and commercial wheeled vehicles. The lift shall safely lower, transport, lift, sustain and position for removal and installation, at a minimum, the components identified in Table I, Para 14 D of this narrative. The components listed in Table I are in no way all-inclusive of the Army's vehicles or their components that could be removed with the lift, but is intended to represent the Army's minimum requirements.

3. MARKET ACCEPTABILITY: Lifts and truck component handling systems (brackets, adapters, and other hardware) offered as Brand Name or lifts and truck component handling systems offered as Equal (see para 13) shall be commercially available lifts and truck component handling systems that have been in production under the same basic design for the last 3 consecutive years and shall have been sold through a customary distributor network to professional automotive maintenance customers. The supplier to the government shall demonstrate that the offered product is supported with adequate spare parts, commercial operation and maintenance manuals, and established repair facilities based in a broad geographic pattern for national and international support with experience at servicing and repairing the specific offered product.

4. The contract will include 5 ordering periods. The dates established for each ordering period and the estimated buy quantities for each ordering period are as follows:

Estimated Buy Quantity

Ordering Period #1:	Date of Award thru 31 Oct 03	135 ea
Ordering Period #2:	01 Nov 03 thru 31 Oct 04	87 ea
Ordering Period #3:	01 Nov 04 thru 31 Oct 05	96 ea
Ordering Period #4:	01 Nov 05 thru 31 Oct 06	94 ea
Ordering Period #5:	01 Nov 06 thru 31 Oct 07	92 ea

The minimum order quantity is 50 ea and the maximum order quantity is 299 ea, subject to the terms of the Order Limitations clause. The estimated buy quantities for each ordering period are subject to change without notice.

For additional information pertaining to Ordering, Order Limitations, and Requirements type contracts, see FAR clauses 52.216-18, 52.216-19 and 52.216-21 contained within this solicitation.

5. The stated minimum ordering range quantities are not guaranteed buy quantities. An award resulting from this solicitation in no way obligates the government to order the stated minimums. Each order stands on its own insofar as it obligates the government.

6. Offerors must complete and submit the pricing evaluation sheet at Addendum 001 of this solicitation. The order quantity ranges are established to permit different unit prices for each quantity range. Offerors must enter a unit price for each of the 3 quantity ranges under each of the 5 ordering periods. The weight assigned to each quantity order range represents the likelihood that if an order is placed, it will be placed in that range. Quotes offering prices for quantities other than those solicited will not be considered. Offerors shall NOT insert any proposed dollar amounts in Section B of the solicitation.

7. The pricing evaluation sheet will be used for price evaluation purposes and will establish the firm fixed prices to be incorporated into any resultant contract. The total evaluated price will be calculated by multiplying each order quantity unit price by its respective weight and by the minimum quantity within each order quantity range. The result for each order quantity range is summed within each ordering period. The sum of all ordering period evaluated prices will be the total evaluated price.

8. FOB is Destination. Likely delivery destinations are Sharpe Army Depot, CA and New Cumberland Army Depot, PA. An estimated 50% of quantities ordered may be destined to Sharpe Army Depot, and the remaining 50% destined to New Cumberland.

9. Preservation, packaging, and packing shall be in accordance with ASTM-D-3951 plus the additional requirements as specified in Addendum 002 of this solicitation.

10. A Material Safety Data Sheet is required for the hydraulic fluid (see Para 13(F) of this narrative) and shall be submitted in accordance with FAR Clause 52.223-3, Hazardous Material Identification and Material Safety Data.

11. All delivery orders will be issued unilaterally by the government. Delivery orders will specify the destination and delivery date. Deliveries shall commence within 30 days after receipt of order at a minimum rate of 50 each per month until shipped complete, unless the remaining order to be shipped is less than 50 ea, in which case the remaining order shall be shipped. Early deliveries are authorized if made at no additional cost to the government.

12. The full text of FAR Clauses 52.212-4, Contract Terms and Conditions - Commercial Items, and 52.212-1, Instructions to Offerors - Commercial Items are included as Addendum 003 and Addendum 004. For those FAR/DFAR clauses incorporated by reference, the full text can be accessed at www.arnet.gov/far.

13. BRAND NAME OR EQUAL: This solicitation contains provisions for 'Brand Name or Equal' in accordance with FAR 11.107 and 52.211-6 (see Addendum 005). Offerors shall provide a Lift, Vehicle Driveline Component that is Brand Name or Equal to Gray Automotive Company's Transmission Jack, Model MM2000S (includes Truck Component Handling System). Offerors shall clearly identify the item being offered by brand name, if any, and make, part number, or model number. If an "Equal" item is being offered, the offeror shall include descriptive literature such as illustrations, drawings, catalogs, brochures, or other manufacturing information that fully describes the item. The offeror shall clearly describe any modifications the offeror plans to make in a product to make it conform to the solicitation requirements. Unless the offeror clearly indicates in it's offer that the product being offered is an 'equal' product, the offeror shall provide the brand name referenced in the solicitation. Although bids/offers are required to be submitted electronically IAW with the Clauses AS7004 and LS7011, if it is not practical to provide the descriptive literature or manufacturing information as described above electronically, the information may be mailed to: TACOM-RI, AMSTA-LC-CTR-E/Mr. Permantier, Building 104, Rock Island, IL 61299-7630. After submission of proposals, the government may require a product sample in order to complete the evaluation.

14. To be considered for award, offers of 'equal' products, including equal products of the brand name manufacturer, must meet the following salient physical, functional, or performance characteristics:

A. LIFTING CAPACITY: Capable of lifting 2000 pound truck drive line components with no more than 70 pounds of force required to be applied to the handle in a downward direction, when the handle is 30 degrees plus or minus 2 degrees from the horizontal.

B. LIFTING RANGE: When measured from the floor to the top center of the lifting platform, the lift shall go as low as 10 inches above the floor or lower to as high as 33 inches above the floor or higher.

C. PLATFORM TILT POSITIONING: The platform that holds the drive line components shall tilt not less than 10 degrees forward, 7 degrees backward, 10 degrees left and 10 degrees right, all measured from the horizontal position. The total travel forward to backward shall not be less than 17 degrees, and the total travel left to right shall not be less than 20 degrees. The platform tilt control mechanism shall automatically retain the platform position in a firm grasp, preventing it from flopping side to side or front to back, whether loaded or unloaded. The tilt controls shall include a hexagonal protrusion that will allow the application of a wrench to aid in position adjustment.

D. TRUCK COMPONENT HANDLING SYSTEM: The truck component handling system shall include brackets, adapters and all hardware that will assure the full usability of the lift on the Army's fleet of military and commercial wheeled vehicles. The truck component handling system shall interface with and retain for safe handling various military and commercial large truck drive line components providing the ability to fix rigidly into position such poorly balanced components as differential carriers and transfer cases, by bolting them to the adapters and then bolting the adapters to the lift platform. The system, including all brackets, adapters, and hardware, shall sustain the 2500 pound proof-load without permanent deformation. The system shall be fully adjustable in order to accommodate all driveline component variations that may be encountered, but at a minimum, must accommodate the components identified in Table I below. The components listed in Table I are in no way all-inclusive of the Army's vehicles or their components that could be removed with the lift, but is intended to represent the Army's minimum requirements.

E. HYDRAULIC SYSTEM:

- (1) The hydraulic system shall have a reservoir that holds not less than 110 percent of the amount of fluid required to lift the load all of the way up.
- (2) The hydraulic pump shall have a handle that rotates not less than 200 degrees and pumps full strokes in all positions of the 200 or more degrees.
- (3) The hydraulic circuitry shall incorporate a device that prevents hydraulic over-pressure build-up when the lift platform has stopped moving upward but the operator keeps pumping.
- (4) The hydraulic circuitry shall incorporate a hydraulic release control valve that provides the capability for the operator to stop the fully loaded lift arm at any position in its decent that he may select, shall provide the capability to control the rate of descent to 1 inch per second or less, and shall provide the capability to lower the empty lift platform from its full up position to its full down position in 30 seconds or less.
- (5) The hydraulic system shall not leak externally or internally when under full load at any height position.

F. HYDRAULIC FLUIDS: Only hydraulic fluids that produce no adverse effects on health and for which no special precautions are required beyond washing with soap and water shall be used. The fluid used in the lift shall be a general purpose hydraulic fluid of ISO Viscosity grade 32 with anti-wear, oxidation resistance, a pour point at or below -40F and rust and corrosion protection. The hydraulic fluids and seals shall be compatible with each other. Example fluids may be Mobil DTE 13 M, Shell Tellus T 32, Texaco Rando HDZ 32, Exxon Unavis N 32, and Chevron Rykon Premium Oil 32. This list is not meant to be all-inclusive but is offered to help clarify the requirement by example. Fluids conforming to MIL-DTL-17111 are also acceptable. Aircraft grade fluids and fire retardant fluids are not required. A Material Safety Data Sheet is required for the hydraulic fluid and shall be submitted in accordance with FAR Clause 52.223-3, Hazardous Material Identification and Material Safety Data.

G. SAFETY TIE DOWN EQUIPMENT: Two safety chains, webs, or wire ropes shall be provided for use as an emergency backup to safely retain the load on the lift in the event that an adapter, bracket, or other hardware would fail during operation. The safety tie downs shall be rated for 500 pounds load each, and shall be supplied with tensioning devices that will take up any slack and that are themselves rated for not less than 500 pounds each. Wire rope, if used, shall have a Flemish eye formed in both ends. The Flemish eye shall be large enough to pass the other Flemish eye through it to form a loop. Webbing or strapping, if used, shall be resistant to degradation from ultraviolet radiation, mildew resistant, snag resistant, water resistant and oil resistant. Ends and edges of webbing and woven materials shall be protected against fraying and unraveling. All safety tie down equipment will be in compliance with Title 29 Code of Federal Regulations (CFR) 1910.184 requirements.

H. EQUIPMENT CASE: The lift shall include a tool box with a latching and lockable lid to hold all of the truck component handling system adapters, brackets, hardware, safety tie down equipment and operator's and maintenance manuals.

I. MOBILITY AND STABILITY: The lift shall be equipped with four steel caster wheels that are not less than 4 inches in diameter and that have ball or roller bearings. The lift is required to meet the mobility requirements of the ANSI/ASME Portable Automotive Lifting Devices (see para L, Adherence to Industry Safety Standards).

J. MARKINGS: The lift shall be marked with information plates that instruct the user to refill the reservoir with the proper hydraulic fluid that shall be named by brand and part number on the plate. The lift shall also have a plate that conforms to ANSI/ASME safety warning requirements as follows:

WARNING
THIS LIFT IS TO BE USED ONLY FOR THE REMOVAL,
TRANSPORTATION, AND INSTALLATION OF
TRANSMISSIONS, TRANSFER CASES AND DIFFERETNIALS.
TRANSPORT LOADS IN THE LOWERED POSITION ONLY.
SEE INSTRUCTION MANUAL FOR PROPER USE.

K. MANUALS: Commercial manuals and operating instructions shall be provided with each lift. The manuals and operating instructions shall provide complete operation, maintenance, trouble shooting instructions, safety warnings and Occupational Safety and Health Administration (OHSA) compliance instructions, as well as diagrams or photographs instructing the removal of, at the minimum, the components identified in Table I, para F above. The manuals shall also include the addresses of dealer/distributors who do repair work, and a list of replaceable parts with part numbers. An appendix shall be added to the manuals for any components in Table I that are not already covered. The manuals and operating instructions shall be placed inside the unit pack for shipping IAW para 5.2.2 of the Packaging Requirements included as Addendum 002 of this solicitation. The contractor shall provide the government a copyright release letter authorizing the government to reproduce or copy the commercial manuals.

L. ADHERENCE TO INDUSTRY SAFETY STANDARDS: The lift and truck component handling system shall comply with the requirements of the American National Standards Institute/American Society of Mechanical Engineers, Portable Automotive Lifting Devices, PALD 1997, with Addendum 2000a, Chapter 2, entitled "Transmission Lifts", or any subsequent revisions to this document in effect during the duration of the contract. In addition, the lift and truck component handling system attachments will comply with 29 CFR 1910.244 and all relevant Title 29 Code of Federal Regulations.

M. WARRANTY: The Lift, Vehicle Driveline Component shall be covered by a warranty that meets, or exceeds, the warranty provided by Gray Automotive Company for the Model MM2000S.

(OCTOBER 1996)

If you have complaints about this procurement, it is preferable that you first attempt to resolve those concerns with the responsible contracting officer. However, you can also protest to Headquarters, AMC. The HQ, AMC-Level Protest Program is intended to encourage interested parties to seek resolution of their concerns within AMC as an Alternative Dispute Resolution forum, rather than filing a protest with General Accounting Office or other external forum. Contract award or performance is suspended during the protest to the same extent, and within the same time periods, as if filed at the GAO. The AMC protest decision goal is to resolve protests within 20 working days from filing. To be timely, protests must be filed within the periods specified in FAR 33.103. Send protests (other than protests to the contracting officer) to:

(g) Nothing contained in this clause shall relieve the Contractor from complying with applicable Federal, State, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material.

- (h) The Government's rights in data furnished under this contract with respect to hazardous material are as follows:
- (1) To use, duplicate and disclose any data to which this clause is applicable. The purposes of this right are to --
 - (i) Apprise personnel of the hazards to which they may be exposed in using, handling, packaging, transporting, or disposing of hazardous materials;
 - (ii) Obtain medical treatment for those affected by the material; and
 - (iii) Have others use, duplicate, and disclose the data for the Government for these purposes.

8 52.216-21 REQUIREMENTS OCT/1995

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and the Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 31 OCT 08.
