1. Offerors are to fill in all the blocks under the column "Unit Price". Offerors who condition their proposal to specific ordering quantities or ordering periods may be rejected as unacceptable.
2. The CLIN Evaluated Price will be calculated by multiplying the unit prices by their respective weights and maximum order quantities for each range to determine the Total Weighted Price. The sum of all the Total Weighted Prices for each Ordering Period will be the Evaluated Price for each CLIN.
3. The Total Evaluated Price will be calculated by adding the Evaluated Prices for all CLINs.
