EPA Category: Paper and paper products

Designated Item: Paperboard and packaging

Estimate of Recovered/Recycled Material Content: Varies from producer to
producer

Justification for procuring the Designated Item that does not meet the
CPG: The combination of performance characteristics, fabrication
techniques, and material properties are necessary to meet requirements in
extreme military environments. This office is unaware of any data that
establishes an alternative product which will satisfy both the
Comprehensive Procurement Guidelines (CPG) and the military's unique
requirements, Establishment of such data is cost prohibitive thus
negating the possibility that an alternate product will be available
competitively within a reasonable time frame. This cost prohibition is
further compounded by the limited quantities of materials desired for this
(TDP of Procurement Package). Specification encourages the use of
recycled materials as long as performance requirements are met.
