Butt Plate Assembly

NSN: 1005-01-461-2658

Part 12989996

First Article Test

Range	Year 1 Unit Price	Wgt.	Year 2 Unit Price	Wgt.	Year 3 Unit Price	Wgt.
150-199		5%		10%		10%
200-299		5%		70%		70%
300-449		5%		10%		10%
450-700		85%		10%		10%

Notes:

1. Contractor's failing to bid on all years and all ranges may be disqualified
2. For evaluation purposes, the Government has weighted the ranges based on the likelihood that if an order is placed, it will be placed in that particular range. An evaluation price will be calculated by multiplying the offered prices by their respective weights and maximum quantities for each range and adding the totals for all years.
3. First Article Testing (FAT) is required on this product prior to production. The box to the right of "First Article Test" for your proposed price of FAT. The location of the box indicates the probable year of the FAT requirement. Failure to propose on FAT may be a reason for disqualification.
4. FAT costs proposed will be added to the evaluation price in the total, as explained in note 2, above.
5. The FAT price will be priced separately, and will be amortized into the unit price for the first ordering quantity.

SECTION L. PRICE

- 1. Evaluation Spreadsheet. All years must be filled in to be accepted. The offeror will enter unit prices for each pricing period on the enclosed Pricing Evaluation Summary. All unit prices will be binding to the Government. Prices will be submitted as FOB Origin.**
- 2. The offeror must submit his price in the space provided on the Price Evaluation Spreadsheet. See additional clarification on the Pricing Evaluation Summary attachment.**

Section M. PRICE

- 1. For evaluation purposes, the Government has weighted the ranges based on the likelihood that if an order is placed, it will be placed in that particular range. The Government will develop an evaluation price for each offeror. This will be done by multiplying each range price times the weight assigned, times the maximum quantity of each range. All ranges and years will be added to arrive at a total evaluation price. First Article Test (FAT) prices will be added to the total, as quoted .**
- 2. Evaluation of the price will include determining reasonableness and realism. Reasonableness is interpreted to mean that the price does not exceed what will be incurred by an ordinarily prudent person in the conduct of competitive business. Realism asks, "Does the proposal price accurately reflect the offeror's proposed effort to meet the program requirements and objectives." An unreasonable or unaffordable price may preclude an offeror from award. The Government retains the right to obtain additional cost/price data, from any offeror in the event of a lack of competitive bids and/or lack of available data to determine the offer fair and reasonable.**
- 3. If the offeror fails to propose for all pricing periods or ranges, the Government may reject that offer as unacceptable.**
- 4. The FAT price may be amortized into the unit price for the first ordering quantity.**
