

SECTION C – DESCRIPTION/SPECIFICATION STATEMENT OF WORK (SOW)
FOR THE IMPROVED TOXICOLOGICAL AGENT PROTECTIVE (ITAP) CASS
BAG

- C.1 BACKGROUND. The purpose of the ITAP CASS Bag is to provide a way to store the parts associated with the CASS system in a convenient and safe manner and to assist in transportation.
- C.2 GENERAL SCOPE. The contractor shall supply all necessary personnel, facilities, equipment, and materials to accomplish the requirements set forth herein.
- C.3 PERFORMANCE REQUIREMENTS. The design of the ITAP CASS Bag shall be in accordance with the technical requirements as identified in the sketch, and technical descriptions in this SOW. Material and dimensions are as called out in the sketch.
- C.4 INTERFACE REQUIREMENTS. There are no interface requirements.
- C.5 TEST AND EVALUATION. The First Article Test (FAT) shall be conducted with 3 ITAP CASS Bags manufactured using the same procedures as regular production.
- C.6 MARKINGS. None.
- C.7 PACKAGING. The CASS bags shall be individually packaged in sealed plastic bags and labeled IAW Mil Std 129. Two (2) individual bags shall be packaged in a cardboard box also labeled IAW Mil Std 129. Standard Commercial Pack is required.
