SECTION A - SUPPLEMENTAL INFORMATION

1. This solicitation will result in the competitive award of a firm fixed price, Five Year, Indefinite Delivery-Indefinite Quantity (See FAR 16.504) contract. This procurement is restricted to Small Business.
2. The quantity of 100 each is the only guaranteed minimum quantity to be awarded under this solicitation and represents the "Minimum Quantity" as defined by and referenced in FAR and DFARS clauses contained within this solicitation document either in full text or by reference. This minimum quantity will be obligated at the time of award. All other quantities are estimates only and do not bind the Government in any way.
3. The quantity order ranges listed on attachment 001 are provided for the purpose of establishing reasonable ranges of quantities against which to provide prices.
4. TACOM-RI will evaluate offers based on prices proposed for all ordering periods and any other price related factors required by the solicitation. The Evaluated Price will be calculated by summing the multiplication of the proposed unit price by its respective weight and maximum quantity of each range for a given ordering period and adding the totals for all periods. If First Article Test (FAT) costs are applicable they will be included to obtain the total evaluated price. The FAT costs will be assessed as part of the total evaluated price, if applicable. If a FAT is required this will be amortized into the unit price for the initial delivery order only. For purposes of evaluation, the Government has weighted the ranges based on the likelihood that if an order is placed, it will be placed in that range. If an offeror takes exception to or fails to propose unit prices for all quantity ranges and ordering periods and/or FAT may be disqualified. SEE SECTION M FOR EVALUATION FACTORS.
5. The Ordering Period and estimated total quantities by Ordering Period are listed below. The Government reserves the right to order more than the estimated yearly quantity during any ordering period.

ORDERING	AWARD	ESTIMATED QUANTITY
Ordering Period (OP) 1	Award Date - 31 December 04	1000 units
Ordering Period (OP) 2	01 January 05 - 31 December 05	300 units
Ordering Period (OP) 3	01 January 06 - 31 December 06	300 units
Ordering Period (OP) 4	01 January 07 - 31 December 07	300 units
Ordering Period (OP) 5	01 January 08 - 31 December 08	350 units

Total estimated quantity for the contract is 2500 units.

6. All prices will be proposed on a FOB origin basis.
7. This solicitation contains a First Article Test Report (FATR) requirement. The FATR will be based on a TDP referenced in Section C of this solicitation. The FATR price will be priced seperately and will be amortized into the unit price for the first ordering quantity only. The proposed unit prices for each quantity order range shall be marked on the pricing evaluation summary (Attachment 001). Proposal offering prices for less than all five ordering periods may be rejected. Proposals offering prices for quantities other than those solicited shall not be considered. SEE SECTION C FOR TDP INFORMATION.
8. All offerors are required to submit a price for First Article Testing. The First Article may be waived solely at the discretion of the Government. SEE SECTION E FOR DETAILS.
9. All delivery orders will be issued unilaterally by the Government with firm delivery dates and ship to addresses. Delivery will commence as follows:

First Article Test Report-	30 days after award of delivery order
Production Quantity with First Article-	150 days after award of delivery order
Production Quantity without First Article-	120 days after award of delivery order

Subsequent orders will require delivery 120 days after award.
Expected delivery rate is 200 units per month.

2 Unit Package. A unit package shall be so designed and constructed that it will contain the contents with no damage to the item(s), and with minimal damage to the unit pack during shipment and storage in the shipping container, and will allow subsequent handling. The outermost component of a unit package shall be a container such as a sealed bag, carton or box.

3 Unit Package Quantity. Unless otherwise specified, the unit package quantity shall be one each part, set, assembly, kit, etc.

4 Intermediate Package - Intermediate packaging is required whenever one or more of the following conditions exists:
