

## **TECHNICAL MANUALS and VIDEO TAPE/CD REQUIREMENTS FOR TEST STAND: ALTERNATOR, GENERATOR, REGULATOR AND STARTER**

Technical Manuals. The contractor will provide technical manuals and a copyright release letter. The manuals are the official medium for providing operating and maintenance instructions and repair parts information pertaining to commercial items of equipment. The manuals will be in the contractor's format using MIL-HDBK-1221 as a guideline to assure the manual format is acceptable. The final manual shall be of high reproduction quality suitable for direct reproduction. The following additional data shall be applied to the cover: National Stock Number (NSN), End Item Nomenclature , Contract Number, Commercial and Government Entity Code (CAGE CODE), Suppliers Name, Address, and CAGE if different from the manufacturer. The copyright release letter shall be a signed copyright release giving the Government unconditional rights to reproduce and use any parts of the commercial manuals which are included with the procured item.

Video tape/CD. Each test stand delivered on this contract shall be furnished with a copy videotape cassette(s)/CD(s) which provides by example the function and operation of major components of the test stand. The videotape/CD shall also show the complete operation of mounting and testing of representative samples of alternators, generators, regulators and starters listed in Table 1. The tapes/CDs shall be in full motion video with audio explanatory of personnel using the test stand and its components from the start of the operation until completion. The videotape shall be either ½" VHS or CD with color, audio, capable of portable playing.

Delivery. The contractor shall provide the Government two draft copies of the commercial manual and two copies of the videotape(s)/CD(s) for approval sixty days prior to final publication. Two paper copies of the manual and two copies of the tapes/CDs of the final publication shall be provided to the Government. Mailing address for the draft copies and final publications is: TACOM-Rock Island, AMSTA-LC-CTRE, Attn: Wannetta Baker Building 104, 1 Rock Island Arsenal, Rock Island, IL 61299-7630. Two paper copies of the manual and two copies of the tape(s)/CDs of the final publication shall be overpacked with each test stand.
