

Section L. Price.

1. The offeror shall enter firm fixed unit prices for each CLIN for all Ordering Periods and Quantity Ranges on the Price Evaluation Spreadsheet. All unit prices proposed will be binding.
2. The Government reserves the right to require the submission of any data (i.e. cost or pricing data) necessary to validate the reasonableness of an offer.

Section M. Price.

1. The Government will evaluate offers based on prices proposed for all ordering periods and any other price related factors required by the solicitation.
2. For each proposal, the Government will calculate a Evaluated CLIN Price by multiplying the proposed unit prices for each range and ordering period by their respective weight and maximum quantity, and summing their totals. The weight associated with each range represents the likelihood that an order, if placed, would be placed within that range.
3. The Total Evaluated Price is the sum of the Evaluated CLIN Prices.
4. If an offeror fails to submit unit prices for all quantity ranges and ordering periods its proposal may be considered unacceptable and the Government may reject the proposal.
