Dear Ms. Borja:

Reference our letter, 19 Apr 00, which opened discussions on Solicitation DAAE20-00-R-0010 for the Parts Kit, Hydraulic Pump (PN 12987864).

The purpose of this letter is to amend the solicitation as follows:

a. CLIN 0001AA is established which will include the first article test report and three (3) Parts Kits, Hydraulic Pumps (PN 12987864). The first article test and report will remain as stated in Clause ES6031 (see amendment 0006 to the solicitation) with the exception that no testing will be required on the Bellows Assy (PN 12927770-1) if it is purchased from Senior Flexonics and a Certificate of Conformance (CoC) to this effect is supplied with the test report. The test report will be submitted as previously specified in the solicitation and, upon approval of the test report by the Contracting Officer, the three Parts Kits will be inspected, accepted and shipped to New Cumberland, PA. The parts used for the first article test will be used in the three Parts Kits to be shipped under CLIN 0001AA. Note: the first article test will not be waived.

b. The three Parts Kits on 0001AA plus an additional 27 each will comprise the minimum guaranteed quantity of 30 each called out in the solicitation.

A copy of the revised pricing chart, which is a part of this amendment, is attached for your review and you will be requested to submit it with your final prices when final proposal revisions are requested at a later date. No response to this letter is requested at this time. Any comments/discussions should be addressed to the point of contact stated below, as soon as possible.

The point of contact is Ms. Cindy Ahrens, TACOM-Rock
