Item #12596897
Part #35-01-383-7154

Dear Ms. Miller,

The tech data of the above item specifies the hardness of the aluminum tooling plate to be Brinell 68 to 70, which is not available commercially. This material is Brinell 65 and can be certified only to this temper. We contacted the suggested source Ryerson and Son Inc., and they do not want to disclose the harness of their material, which is very unusual, since this information is readily available and is part of the standard material certificate.

We made this part in the past from material of Brinell 65, and we can quote only with this hardness of material.

Our unit price \$375.00 each.

Our inspection level complies with MIL-C-45662A, including MIL-I-45208.

Packaging will be at RECTICO, INC. 6 Stewart Place, Fairfield, N. J. 07006 Cage 05300

Thank you for considering us for this request, remain

Very truly yours, Stephen E Bajkai
