Total Evaluated Price for the Entire Proposal:

1. This will be an all or none procurement. Contractor's failing to bid on all items, all years, and all ranges may not be considered.
2. For evaluation purposes, the Government has weighted the ranges based on the likelihood that if an order is placed, it will be placed in that particular range. An evaluation price will be calculated by multiplying the offered unit prices by their respective weights and minimum quantities for each range on each line item and adding the totals for all years.
3. A total evaluation price will be determined by adding the adjusted totals on all line items and all years.
