4750-5874		5%		5%		5%		70%		5%
5879-7000		5%		5%		5%		5%		5%
8929+		100%		5%		5%		5%		5%

Notes:

1. Contractor's failing to bid on all years and all ranges may be disqualified.
2. For evaluation purposes, the Government has weighted the ranges based on the likelihood that if an order is placed, it will be placed in that particular range. An evaluation price will be calculated by multiplying the offered price by their respective weights and minimum quantities for each range and adding the totals for all years.
3. First Article Testing (FAT) is required on this product prior to production. The box to the right of First Article Test is for your proposed price of FAT. The location of the box indicates the probable year of the FAT requirement. Failure to propose on the FAT may be a reason for disqualification.
4. FAT costs proposed will be added to the evaluation price in the total as explained in note 2, above.
5. The FAT will be priced separately, and will be amortized into the unit price on the first order.

* 8,929 is the guaranteed quantity first year only
