-----	--------	--	----------

(a) In accordance with Section 326 of P.L. 102-484, the Government is prohibited from awarding any contract which includes a specification or standard that requires the use of a Class I ozone-depleting substance (ODS) identified in Section 602(a) of the Clean Air Act, 42 U.S.C. 7671a(a), or that can be met only through the use of such a substance unless such use has been approved, on an individual basis, by a senior acquisition official who determines that there is no suitable substitute available.

(b) To comply with this statute, the Government has conducted a best efforts screening of the specifications and standards associated with this acquisition to determine whether they contain any ODS requirements. To the extent that ODS requirements were revealed by this review they are identified in Section C with the disposition determined in each case.

(c) If offerors possess any special knowledge about any other ODSs required directly or indirectly at any level of contract performance, the U.S. Army would appreciate if such information was surfaced to the Contracting Officer for appropriate action. To preclude delay to the procurement, offerors should provide any information in accordance with FAR 52.214-6 or 52.215-14 as soon as possible after release of the solicitation and prior to the submission of offers to the extent practicable. It should be understood that there is no obligation on offerors to comply with this request and that no compensation can be provided for doing so.

(e) The price that is provided by the offeror in the Schedule in Section B will be considered as follows:

(1) If an SPI is identified in paragraph (b) above, the Government will presume that the price is predicated on the use of the proposed SPI.

(f) Bidders/quoters/offerors are cautioned that there is always the possibility that the Government could make a determination at the Head of the Contracting (HCA)/Program Executive Officer (PEO) level that the proposed SPI is not acceptable for this procurement. If such a determination is made, and the bid/quote/offer only identifies a price predicated on use of proposed SPI, the bid/quote/offer will be determined nonresponsive. Bidders/quoters/offerors who propose SPI processes are encouraged to provide a price below to reflect their price for the item manufactured in accordance with the requirements as stated in this solicitation to preclude possibly being determined nonresponsive:

SECTION M. PRICE

1. The Government will develop an evaluation price for each offeror. This will be done by multiplying each range price times the percentage assigned, times the minimum quantity of each range. All ranges and years will be added for all line items to arrive at a total evaluation price.
2. Evaluation of the price will include determining reasonableness and realism. Reasonableness is interpreted to mean that the price does not exceed what would be incurred by an ordinarily prudent person in the conduct of competitive business. Realism asks, "Does the proposal price accurately reflect the offeror's proposed effort to meet the program requirements and objectives." An unrealistic or unaffordable price may preclude an offeror from award. The Government retains the right to obtain additional cost/price data, from any offeror in the event of a lack of competitive bids and/or lack of available data to determine the offer fair and reasonable.
3. If the offeror fails to propose for all pricing periods or ranges, the Government may reject that offer as unacceptable.
