SECTION E - INSPECTION AND ACCEPTANCE

Based on an acquisition strategy that this solicitation will be a "commercial buy" using Government technical data packages (commercial items with minor modifications offered for sale), the following addenda is recommended: "The contractor shall ship with a Certificate of Conformance. The contractor's signed certificate shall be attached on the top copy of the Standard Form 1449 distributed to the payment office or attached to the Contracting Administration Officer copy when contract administration (block 16 of the SF 1449) is performed by the Defense Contract Management Command. In addition, a copy of the signed certificate shall also be attached to or entered on copies of the SF 1449 accompanying the shipment. The certificate shall confirm that supplies or services conform in all respects with all contract requirements, and all statements on the SF 1449.

The contractor shall implement and maintain a quality system that ensures the functional and physical conformity of all products furnished under this contract. The quality system shall achieve defect prevention and process control, providing adequate quality controls throughout all areas of contract performance. At any point during contract performance, the Government will have the right to review this quality system to assess its effectiveness in meeting contract requirements.

The contractor shall provide the company's standard commercial warranty coverage for all products furnished under this contract.

A First production lot acceptance test sample of five each component, assembly shall be randomly selected from the entire first month's lot by a quality assurance inspector, or the Government Quality Assurance Representative if contract administration is performed by DCMC, an inspection report shall be submitted to the Government Procuring Contracting Officer for review and approval before the first month's production lot of products will be accepted or shipped. This report shall document only those dimensional inspection results that are unique to the Government furnished Technical Data Package and verification of all processes used. Vendor supplied parts will only require receiving inspection results of Quality Assurance Provision characteristics. Within 30 calendar days after the Government receives the inspection report, the Contracting Officer shall notify the contractor, in writing, of the approval or disapproval of the report. Approval of this report shall not relieve the contractor from complying with all requirements of this contract.

The Government reserves the right to require a subsequent or limited inspection report if changes are made to the Government or contractor technical data, or the contractor makes a significant change in production processes and/or type of material."
