1. TACOM-RI will evaluate offers based on prices proposed for all ordering periods and any other price related factors required by the solicitation.
 - a. For purposes of evaluation, First Article Test cost will be added to the Total Evaluated CLIN Price, as applicable. The exclusion of the FAT cost is dependent upon whether or not an offeror will receive approval of a waiver prior to evaluation. Failure to propose FAT may be considered a reason for disqualification.
 - b. For each proposal, TACOM-RI will calculate a total evaluated price by multiplying the proposed unit prices for each range and ordering period by their respective weight and maximum quantity, and summing their totals. The weight associated with each range represents the likelihood that an order, if placed, would be placed within that range. TACOM-RI will also consider other price related factors required by the solicitation to include first article tests, GFE, or other price related costs.
 - c. Any proposal that is unrealistically high or low in price will be deemed indicative of a failure to comprehend the Government's requirement and may be rejected for such a reason.
2. If an offeror takes exception to or fails to propose for all quantity ranges and ordering periods, the Government may reject that offer as unacceptable.
