

STATEMENT OF WORK FOR
PUBLICATION REQUIREMENTS FOR
SKID LOADER
PD-415

1. PURPOSE: This Statement Of Work (SOW) sets forth the requirements for publications to be delivered under this contract.

2. REQUIREMENTS:

2.1. The Contractor shall provide two (2) each comprehensive manuals for every skid loader and all attachments to be delivered under this contract. The manuals shall be packaged in such a manner as to prevent damage from moisture and shall be over packed and placed within each skid loader.

2.2. At a minimum, the manuals shall adequately explain all operation and maintenance requirements for the skid loader and all attachments. The manuals shall also include electrical schematics and wiring diagrams, parts lists, and spare and repair parts ordering information troubleshooting and diagnostic procedures, and removal and replacement instructions for all attachments. Finally, the manuals shall contain a readily accessible point of contact for questions, comments, and suggestions relative to the manuals.

2.3. The manuals shall be packed along with copyright release letters that provide the Government unlimited rights to use and reproduce the information furnished.

2.4. Within 30 days of award, the Contractor shall submit for the Contracting Officer's approval a sample of the manuals to be furnished with the skid loaders.

3. QUALITY ASSURANCE PROVISIONS:

3.1. The Contracting Officer reserves the right to reject the manuals if they fail to adequately and reasonably address the requirements contained herein.

3.2. Failure to fulfill requirements of paragraph 2 shall be cause for rejection of the skid loader.

4. CONTINUING SUPPORT PROVISIONS:

4.1. The contractor shall provide to the Contracting Officer, in the form of replacement pages, any update or changes to the manuals provided.
