SECTION A - SUPPLEMENTAL INFORMATION

1. The purpose of this amendment is to make the following changes:

a. In SECTION L - INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFERORS: Paragraph L.1.1 is changed to read "Past Performance Information: as used in this solicitation, is relevant information regarding an offeror's performance success under previously awarded contracts. The performance information submitted by the offeror and information obtained from sources external to the Government on non-Government contracts and internal US Army/DOD sources and databases, such as, but not limited to interview/questionnaire input from historical contract administrators, the Past Performance Automated Information System (PPAIS), Past Performance Information System (PPIMS), Mechanization of Contract Administration Services System (MOCAS), and any other available information may be investigated to assess and rate performance risk. Some aspects of Performance Risk MAY include the following: the offeror's current and prior performance record of conforming to specifications, standards, quality and good workmanship; the contractor's adherence to contract requirements (such as delivery schedules) and administrative aspects of the contract; the general aspects of overall performance under the terms of the contract; the contractor's business relations, history of reasonable and cooperative behavior and its commitment to customer satisfaction; and generally, the offeror's business-like concern for the interests of the customer."

b. In SECTION M - BASIS FOR AWARD: Paragraph M.2.1 is changed to read "The Government will evaluate and rate the performance risk of each offeror. Ratings will be based on the past performance information provided by the offeror, as defined in accordance with Section L.1 and L.4, and information obtained from other sources. In assessing an offeror's performance risk, the Government may consider the offeror's current and prior performance record of conforming to specifications, standards, quality and good workmanship; the contractor's adherence to contract requirements (such as delivery schedules) and administrative aspects of the contract; the general aspects of overall performance under the terms of the contract; the contractor's business relations, history of reasonable and cooperative behavior and its commitment to customer satisfaction; and generally, the offeror's business-like concern for the interests of the customer. A significant achievement, problem/problem resolution or lack of relevant data in any element can become an important consideration in the selection process. A negative finding in any element may result in an overall high-risk rating. Offers under this factor will be rated as follows:

Very Low Risk: Based on the offeror's past performance, very little doubt exists that the offeror will successfully perform the required effort.

Low Risk: Based on the offeror's past performance, little doubt exists that the offeror will successfully perform the required effort.

Moderate Risk: Based on the offeror's past performance, some doubt exists that the offeror will successfully perform the required effort.

High Risk: Based on the offeror's past performance, significant doubt exists that the offeror will successfully perform the required effort.

Neutral: A level of risk could not be determined and is unknown. No relevant performance record was identified or located."

2. All other terms and conditions of the solicitation remain unchanged.
