SECTION H - SPECIAL CONTRACT REQUIREMENTS

| <u>Status</u> | <u>Regulatory Cite</u> | <u>Title</u> | <u>Date</u> |
|--|------------------------|---------------------------|-------------|
| H-1 | ADDED UDLP Y2K | YEAR 2000 (Y2) COMPLIANCE | JUN/1999 |
| <p>(a.) The contractor shall ensure that the products provided under this contract whether acting alone or combined as a system, are able to accurately process date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it. This includes interfaces with standard military products (such as the Global Positioning System) which use DoD approved interface formats.</p> <p>(b.) In the event that this contract calls for the delivery of any data processing hardware, software and/or firmware (to be referred to as information technology), such deliverables shall be required to perform accurate date/time processing involving dates subsequent to July 31, 1999 for purposes of interfacing with the Global Positioning System and subsequent to December 31, 1999 for all other purposes. The information technology shall be Year 2000 compliant upon delivery; or any non-compliant information technology shall be upgraded to be year 2000 compliant prior to the earlier of (i) the earliest date on which the information technology may be required to perform date/time processing involving dates later than July 31, 1999 for purpose of interfacing with Global Positioning System or December 31, 1999 for other purposes, or (ii) July 31, 1999 for products that interface with the military Global Positioning System or December 31,1999 for all other products.</p> <p>1. Contractor responsibility under this clause is limited to information technology for which it is solely responsible. Government Furnished Information Technology (GFIT) provided under this contract as well as any other Government furnished or controlled hardware, software or firmware with which Contractor products must interface is expressly excluded.</p> <p>2. To the extent that current government approved designs require modification to achieve such compliance, appropriate engineering change proposals will be processed in accordance with the applicable contract. Replacement of previously delivered products or components, if required by the Government, will be accomplished under the "Changes" clauses and the contract price and/or schedule will be equitably adjusted.</p> <p>(c.) Definition. Year 2000 compliant means information technology that accurately processes date/time date (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries and the years 1999 and 2000 and leap year calculations. Furthermore, year 2000 compliant, information technology, when used in combination with other information technology, shall accurately process date/time data if the other information technology properly exchanges date/time data with it.</p> | | | |
